McGRAW-HILL PUBLISHING COMPANY, INC., NEW YORK CITY

GENERAL ALPHABETICAL INDEX

Sewage gas goes to work.....	Feb.	307
Silicon enters to be made.....	Feb.	307
Spectators flicks in black liquor.....	Feb.	310
Starch furrows.....	May	312
Want American oil refiners.....	Dec.	313
Awards:		
Chemical Industry Medal to go to Rand Industrial Institute (N).....	July	198
Hyatt award to G. M. Powell for work on vinyls (N).....	July	198
Major Award to J. H. Duerksen, In- dustrial Institute Education (N).....	Feb.	198
B		
Bags—Multilayer bags for shipping chemi- cals. R. W. Lahay, pt. 1, Mar. 1951.....	Mar.	331
Polyethylene bags in cans hold chemi- cals (P. N.).....	May	334
Barrels—Save cash on your barrel head Aug. 1951.....	Aug.	334
Belgium—Refinery in Antwerp.....	June	371
Benzene survey.....	Sept.	371
Beryllium at Luckey, Ohio (N).....	June	386
Bins—How to get more leverage on du- plicit bin gates. C. Lee (P. N.).....	Dec.	334
Blowcase, automatic, lifts liquids by suction or gas pressure. G. Jung- nitz (P. N.).....	Aug.	314
Boilers—Inhibited phosphoric acid re- moves scale from boilers. Purcell (A.).....	Dec.	368
Packaged boiler.....	Dec.	368
Waste heat recovery has almost in- finite possibilities. Robert Cumberly May.....	May	340
Book Reviews:		
Acetylates and carbon monoxide chemistry. Copenhagen & Bie- leborg.....	Feb.	348
Advances in colloid science. Vol. III, H. G. Verwey.....	Mar.	373
Aspirin: chemical synthesis. Vol. II, D. E. H. Pratt.....	July	304
The alkalooids: chemistry and phy- siology. ed. by Maxie & Holase Aug. 1951.....	Aug.	337
American chemical industry—a his- tory. ed. by Maxie & Holase.....	Aug.	337
Analytical absorption spectroscopy, H. G. Mellon.....	Dec.	371
The analytical chemistry of indus- trial poisons, hazards and solvents. M. B. Jacobs.....	Apr.	314
Bananas. H. V. Van Loenen.....	Jan.	265
Biophysical research methods ed. F. M. Usher.....	Sept.	304
Boron trifluoride and its derivatives. R. C. Marz.....	Apr.	304
Chemical Engineer's Handbook. J. H. Perry.....	Apr.	305
Chemical inventions and chemical patents. Edward Thomas.....	Oct.	326
The chemical technology of dyeing and printing. Louis Dierker.....	Mar.	326
Chemicals of construction for Ameri- can.....	Mar.	326

NOTES—(A) Abstract; (c) Comment; (ed) Editorial; (E.N.) Equipment, News, * Illustrated; (N) News; (P.N.) Plant Notebook

- ical process industries. J. A. Leo Dec. *287

The next ten years in the chemical process industries (charts).....Nov.	158	Plastic containers.....Dec.	156	Dilation monograph for certain aqueous inorganic solutions. Frishe, Ansell & Samuels (P.N.).....Oct.	153
Plants and processes.....Feb.	110	Standardization of steel containers.....Jan.	159	Directory of materials.....Nov.	143
Product development report.....Sept.	119	Continuous Processing—Progress in.....Feb.	117	Directory of National Chemical Exposition exhibitors.....Aug.	256
Production, price and value of our most important chemicals (table).....Feb.	107	Controllers:		Distillation:	
Products.....Feb.	118	Automatic timer controls chemical supply pumps. J. W. McClellan (P.N.).....Apr.	143	Counter-current molecular still.....Aug.	131
Profit and loss (tables).....Feb.	93	Five problems and five answers at Shell Chemical. J. A. Parker.....Dec.	109	Flow splitter for lab gas fractionating columns. Kirk & Viola (P.N.).....Oct.	132
State of the industry—annual review.....Feb.	91-122	Integrated control system for multiple-effect evaporators. Camp & Co.....Apr.	110	How to locate a distilling column blockage without drilling holes. Marshall Neal (P.N.).....Jan.	130
Supply and demand.....Feb.	94	New graphic control panels.....Apr.	110	Locating a distilling column blockage without distilling holes. F. H. Lacey (P.N.).....Mar.	105
U. S. production of certain chemicals Jan. 274, Feb. 272, Mar. 274, Apr. 344, May 366		Pneumatic control for mill level (P.N.).....Jan.	114	Lube oils and paraffins was flow-sheeted.....May	170
Chemical Show—Construction materials at 1949 Chemical Show.....Jan.	114	Process control diagrams in instrument cases help to avoid confusion. W. C. Sandretto (P.N.).....Aug.	113	Modern grain distilleries contribute. P. J. Schaible (A.).....May	210
Chicago's best restaurants.....99		Robot plants.....Feb.	114	Molecular distillation promises better lubricants (A.).....Jan.	109
Chile oil and gas plant under construction.....Dec.	316	Using pneumatic controllers to control electric heat. A. H. McKinney (P.N.).....May	114	Plastic vs. vapor—by queue simple method. Donnell & Cooper.....June	121
China—Red China plans paper pulp unit.....Sept.	207	Viastometer. W. M. Trigg.....May	116	Slide rule speeds up distillation calculations. Ju Chin Cha, W. D. Robinson & D. P. Doll.....Jan.	100
Chlorine:		Conveyors:		Ward lubricating oil produced in Cit-Conn. new plant near Lake Charles. La. J. A. Lee.....Mar.	94
Chlorine and caustic flow-sheet. June	178	Conveyor belts. Harold von Thaden.....Jan.	143	Dolemite—Quarrying and processing mica to make basic refractories. A. C. Byrne.....May	102
Chlorine caustic to be increased at Tacoma plant (N.).....Dec.	158	How solids flow in pneumatic handling systems. H. Kern.....Apr.	105	Dominican Republic—Alcohol plant completed.....Feb.	104
Chlorine—commodity survey.....Feb.	103	Patterns on the training of belt conveyors. C. A. Lee (P.N.).....Sept.	121	Drives—how to determine center distance for V-belt drives. F. H. Rumbles (P.N.).....May	100
Chlorine dioxide in water purification. R. N. Aston (A.).....Dec.	260	Cooling Towers:		Single phase drive.....Dec.	100
Dow hikes chlorine and caustic soda production (N.).....Nov.	106	Cooling towers for water re-use. H. E. Degler.....June	139	Drugs:	
Materials of construction used for chlorine.....Nov.	106	Don't let this happen to your cooling tower. Bloch & Frasier.....Sept.	140	Adrenal steroids.....Sept.	107
100 years of Pennsalt progress.....Oct.	104	Over-all energy savings demand cooling water economy. D. B. Horis (mapa).....May	147	Antibiotics—commodity survey. J. R. Skeen.....Sept.	106
Pilot plant will test new process on sewage (N.).....Nov.	223	Copper sulphate flow-sheet.....Nov.	119	Carbonyl iron powder.....Feb.	100
Thermodynamic properties of superheated chlorine. R. E. Hulme (e) Mar. 194; Jarl Sallin (e).....Mar.	194	Corrosion:		Caustic for 1947.....Feb.	100
What size caustic cell? D. O. Hubbard.....Sept.	183	Caustic danger zone. Berk & Waldeck.....June	226	Corrosion packaging.....Sept.	101
Chloroacetaldehyde.....Mar.	158	Caustic soda versus construction materials.....Jan.	213	Daytime sedative.....Aug.	100
Chromium—Electrolytic plant to be constructed at Sault Ste. Marie (N.).....Sept.	188	Construction materials in the paper industry. Pt. 1, stock handling. Sept. 211; Pt. 2, bleaching. Oct. 204		Paralib-18 saves chicks from disease.....Aug.	100
Citric acid.....July	188	Flame-sprayed polyethylene coatings resist corrosion (N.).....Aug.	174	Drums:	
Citric acid price forecast for one year (N.).....Oct.	197	Four steps to better coatings. Kenneth Tator.....Mar.	222	Double drum dryers with automatic level control. H. H. Fox.....Sept.	112
Clarification—Water-injection streamlines alkaline clarification. J. M. Crookin.....Nov.	211	Inhibitor.....Mar.	166	Fiber drums.....July	112
Cleaning—Cold liquid cleaner.....Mar.	164	Materials selection chart for resistant corrosive media. N. S. Mart.....Aug.	197	Improvements in drums for chemical users.....Jan.	100
Coal:		New rust preventives. W. D. Robertson (A.).....Apr.	200	Metal drums.....Sept.	110
Better definitions needed of the coal chemicals (ed).....Jan.	106	Rust inhibitor (A.).....Jan.	162	New process for coating large steel drums before fabrication. C. J. Drying.....Continuous dryer-classifier June	110
Bituminous coal and coke oven gas, 1949 production, price (table).....May	106	Scotch tape used to wrap gas mains.....Apr.	244	Double drum dryers with automatic level control. H. H. Fox.....Sept.	110
Steam-heating arrangement keeps coal flowing (P.N.).....June	120	Titanium corrosion data.....May	203	Durimet and the paper industry. W. A. Luce.....Dec.	100
Coatings:		Corrosion packaging.....Sept.	131	Durimet versus caustic soda. W. A. Luce.....Feb.	200
Flame-sprayed polyethylene coatings resist corrosion (N.).....July	174	Casts:		Dye and Fume Handling:	
Four steps to better coatings. Kenneth Tator.....Mar.	222	How process equipment costs varied (chart & table).....Feb.	123	Air filter designed for ABC.....June	104
Kel-P dispersions applied by spraying, brushing or dipping.....May	194	How to cut costs—14 practical tips. Marshall Sittig and Stevens annual indexes of comparative equipment costs, 1913 to 1949 (table). Feb. 123, Mar. 193	126	Air pollution.....economica. W. B. Gibson (A.).....Mar.	101
Plastic coating.....May	198	Plants to plant equipment costs. 1913 to 1949 (table). Feb. 123, Mar. 193	126	Air pollution.....trends. L. C. Moore (A.).....Mar.	100
Protective coatings vs. caustic soda.....Feb.	216	Protective plant costs. C. H. Chubb (charia).....Apr.	119	Baltimore, Md. to make smog survey (N.).....Apr.	100
St. Regis expands polyethylene coating facilities (N.).....Oct.	179	What had it isn't so (ed).....Jan.	107	Cleaning of stack gases from cooling and melting operations. J. W. Kane (A.).....June	101
Vinyl coating.....Feb. 148; Mar. 168		What about unit operation costs?.....July	137	Dust collector.....Dec.	100
Coke and Coke Products:		Cotton seed tester.....Dec.	184	Elimination of combustible stack fumes. R. J. Ruff (A.).....Aug.	110
Coke-oven products—canvass for 1949.....Oct.	108	Cosymol.....June	174	Fog filter traps SO ₂ , H ₂ S, and fatty acid vapors. E. P. Kropp (A.) Oct.	110
Coking unit completed at Arkansas refinery (N.).....Nov.	224	Crystallizers—report. A. R. Thompson.....Oct. 125-132		Mobile air pollution laboratory (N.).....June	110
Production of water and coke simplified by use of tonnage oxygen. J. W. Blanchford (A.).....Oct.	237	DET—Flow-sheet.....Nov.	204	New dust filters giving unequalled results. Smith & Stafford.....Aug.	100
Colombia—Texas finds new oil field.....Jan.	219	Decantation—Continuous counter-current decantation. M. G. Mastin.....Jan.	100	Regulation of air pollution. R. F. Hansen (A.).....Sept.	100
Commodity Surveys:		Defense—Industry, too, needs manpower (ed).....Jan.	121	Sensible approach to air pollution. H. H. Lammer (A.).....Sept.	100
Acrylonitrile.....Mar.	114	Industrial preparedness. R. C. Rothmann (A.).....Dec.	202	Sonic precipitation of smoke, dusts and mists. H. W. Danner, Jr.....May	100
Antibiotics. J. R. Skeen.....Sept.	245	Voluntary vs. formal allocations (ed).....Oct.	130	Sonic precipitation of smoke, dusts and dust particles. Melvin Nord.....Oct.	110
Benzene.....Jan.	271	Deionizer.....Oct.	158	Dyes:	
Borax.....Feb.	240	Density indicator. Frederick Carr (P.N.).....June	118	Azo dye flow-sheet.....Sept.	174
Carbon tetrachloride. J. R. Skeen.....Oct.	101	Detritics—Ammoniated. R. G. Keel.....Jan.	245	Blue azo dye stuff (A.).....Jan.	161
Chlorine.....Oct.	103	Design—Check your design jobs. G. T. Austin.....June	137	Lane of dyestuffs.....Feb.	160
Ethylene oxide. J. R. Skeen.....July	131	Design engineering goes to modern production methods. Lewis Clifton.....Dec.	204	Editorials:	
Formaldehyde.....Aug.	248	Detergents:		Accent on age.....Feb.	90
Methyl ethyl.....Dec.	146	Detergents of the future. A. L. Fox (A.).....Sept.	246	All for one, one for all.....Oct.	121
Soda ash. J. R. Skeen.....Nov.	325	Glim packaging.....Sept.	151	Another business crisis.....Oct.	126
Styrene.....June	227	Silicate detergent.....Mar.	164	Argument—or alibi?.....Mar.	113
Sulphuric acid. J. R. Skeen.....Oct.	227	Diacetate.....June	174	At long last.....June	124
Computers—How analytical computing devices can serve process industries. Morris & Hubert.....July	142	Diallylamine.....Oct.	169	Barter for benzene?.....July	124
MIT's bantam differential analyzer. Vitlan & Peaceman.....Aug.	164			Better compounds from better materials.....May	101
Report on computers.....Dec. 111-130				Better definitions needed.....Jan.	100
Consistometer measures flow properties of suspensions. N. S. Serin (P.N.).....Mar.	137				
Construction:					
A cheaper way to buy a plant—know what you need. D. Q. Kern.....July	138				
Concrete as a protection in future wars. A. A. Bates (A.).....July	274				
How Calco planned a plant for future expansion. M. M. Hoover.....Feb.	134				
Project engineering report. David Gordon.....Mar.	125-138				
What's maintenance and what's construction?.....Aug.	182				
Containers—Fiber cans have their advantages too.....Mar.	207				

Blood and rebound.....	Apr.	131	How to get a job—the right job.....	Mar.	130	Retarder, vaporizing-liquid.....	Oct.	174	
British trade fair.....	Feb.	132	Harry Meyerman.....	Mar.	130	Extractor, apparatus.....	Oct.	169	
Business worries.....	Nov.	133	The human equation.....	R. L. Demmerle.....	June	126	Eye wash fountain.....	Sept.	153
Butadiene, industrial chemical.....	Oct.	125	Lionsome.....	June	126	Fan, axial.....	Sept. *148, Oct.	153	
Challenges of refining.....	Sept.	126	Some laymen are still wary of the	Oct.	132	Fan, centrifugal.....	June	147	
Chemicals vs. manpower.....	Mar.	112	aims and thoughts of the technical	Nov.	135	Fan, ventilation.....	Aug.	146	
Cold war on cold rubber.....	Mar.	93	men. Why? R. L. Demmerle.....	Sept.	135	Feeder, dry chemical.....	Dec.	153	
Compazine, too, must be worn.....	Mar.	93	Engine, internal control.....	May	126	Feeder, liquid reagent.....	Nov.	173	
Costly but necessary research.....	Apr.	101	I.C. engines and gas turbines raising	Feb.	126	Feeder, manganese apron.....	Dec.	148	
Craft problems present and future.....	Nov.	167	feet economy. L. N. Rowley.....	May	126	Feeder, pressure.....	July	180	
The engineer and society.....	Jan.	129	Equipment.....	July	164	Feeder, vibrating.....	July	180	
For dear old Dad.....	Mar.	113	Aftercooler, small.....	Sept.	144	Feeder, vibrator.....	Dec. *141,	153	
For phony beans.....	Aug.	127	Agitator, adjustable.....	Sept.	144	Perforator, granular.....	Aug.	187	
For stabilizers in chemical process	Aug.	127	Agitator, air-powered.....	Oct.	150	Fillers, vacuum.....	Aug.	187	
Isolates.....	Aug.	127	Agitator, base.....	Oct.	150	Filling machine.....	Aug.	187	
Forever never built.....	Sept.	137	Agitator, for bins.....	May	179	Filter, coil up in.....	May	177	
Good news for gardeners.....	June	128	Analyzer, automatic 80%.....	Feb.	144	Filter, coarse.....	May	177	
Half century of progress.....	Aug.	128	Batch.....	Feb.	144	Filter, self-cleaning.....	Dec.	152	
Hua vs. butter in 1951.....	Aug.	113	Battery, shaftlight.....	Apr.	161	Filter, stainless, compact.....	June	152	
Gases and Achema IX.....	Aug.	128	Belting roll.....	May	182	Filter, stainless.....	Nov.	184	
Half century of progress.....	Aug.	128	Belting roll.....	May	182	Finish, transformer.....	Nov.	184	
How vulnerable are plants?.....	Aug.	128	Blender, disintegrating.....	Dec.	150	Fire detector.....	Sept.	185	
Ideas on ideas.....	May	102	Blender, double-shaft.....	Dec.	150	Flamingo.....	Dec.	140	
Industry, too, needs manpower.....	Dec.	151	Blender, transparent.....	June	150	Fire fighter, foam.....	July	163	
Is there a shortage of labor?.....	Jan.	129	Blender, twin-shell.....	Feb.	143	Fire hose.....	Sept.	148	
Is more ammonia needed?.....	Jan.	129	Blender, packaged.....	Dec.	150	Flowmeter, variable-area.....	Jan.	144	
A Korean chemical industry.....	Sept.	126	Boiler, pre-assembled.....	Nov.	154	Flowmeter, volumetric.....	Oct.	142	
Latest developments in chemical	Nov.	154	Boiler, pressure vessel.....	June	147	Freezer, dry.....	Nov.	173	
Materials of construction.....	Nov.	154	Boiler, roller.....	June	147	Gage glass, safety.....	May	176	
Men, milk and money.....	July	101	Boiler, roller.....	June	147	Gage, high vacuum.....	Jan.	147	
More basic research, better teachers	July	101	Breath, automatic.....	Dec.	157	Gage, ionization.....	Nov.	173	
Mura biochemical engineering needed	Feb.	96	Brick elevator.....	Dec.	157	Gage, solid-front.....	Nov.	173	
More light, less heat.....	Feb.	96	Brick handling.....	Dec.	157	Gage, vacuum.....	Jan.	142	
Needed: scientific statesmanship.....	June	127	Caster, powdered metal.....	Sept.	146	Gage, vacuum, recording.....	Jan.	145	
New insecticide problems.....	June	127	Centrifugal, valve bowl.....	Mar.	142	Gaging tank system.....	Oct.	145	
New home on the beach.....	June	127	China, elevator.....	Mar.	150	Gas mask, improved.....	Oct.	145	
A new note in tariff talks.....	June	127	Chemical pump, rubber-Acc-lics.....	Mar.	150	Gas detector.....	Aug.	149	
New Science Foundation.....	June	127	Circulator, steam.....	July	162	Gas generator.....	Dec.	157	
Next award.....	May	101	Circulator, steam.....	July	162	Gas hazard indicator.....	Dec.	157

Younger blood in executive veins
(ed) Jan. 159
Manufacturing Chemists Assn. meeting
(N) July 158

Materials Handling:

Application of moving-bed process to
solids, Marshall stilling, Dec. 156
Belt unloaders handle both troughs and
and crowned conveyors, G. T.
Austin (P.N.), Jan. 154
Bundles of sacks can save space, Apr.
150
Fork trucks and palletized loads
speed Monsanto's operations, Jan.
157
How solids flow in pneumatic han-
dling systems, A. H. Korn, Mar.
156
Liquid handling by "switchboard"
and tank farm, Jan. 159
Multitail bags for shipping chemi-
cals, Mar. 159
Multitail bags for shipping chemi-
cals, R. W. Leiby, pt. 1, Mar.
159
Multi-cargo tankers for liquid chem-
icals, R. W. Leiby, pt. 2, Apr.
159
New system speeds drum handling
machinery at Hanford, July 157

Materials of Construction:

Caustic danger zone, Berk & Wal-
deck, Jan. 158
Caustic soda versus construction ma-
terials, Jan. 158
Construction materials in the paper
industry, pt. 1, stock handling, Sept.
151; pt. 2, bleaching, Oct.
151
Directory of materials, Nov. 153
Four steps to better coatings, Ken-
neth Taylor, Mar. 159
Materials of construction issues, Nov.
153
Materials of construction used for
acetic acid, ammonia, caustic soda,
chlorine, fatty acids, hydrochloric
acid, hydrofluoric acid, nitric acid,
phosphoric acid, sodium chloride,
sulphur, sulphur dioxide, sulphuric
acid, Nov. 158-159
Materials selection chart for resis-
tance to corrosive media, N. S. Mori,
Aug. 157
1949 Chemical Show, Jan. 154
Titanium: good but not miraculous,
May 156
When and how to line process vessels
with stainless steel, R. G. Shan,
Jan. 157
McGraw-Hill Publishing Co.—Curtis W.
McGraw succeeds brother as president
(N), Jan. 156
Melamine—Calco's Willow Island plant,
Mar. 158
Metal-ceramics for ceramics shown in
1949 Chemical Show, Jan. 155
Metallic sodium flow sheet, Dec.
157
Metals—Materials of construction used
for metals, Nov. 153
Metals—How to cut maintenance on or-
dinary metal, W. G. Thompson, June
150
Multiple orifice installation saves on
meter cost, R. J. Armstrong (P.N.),
Jan. 157
Methanol—Monsanto makes its own for-
maldehyde, L. R. Pusey, Jan.
158
Methionine, synthetic produced by Cal-
formia (N), Dec. 158
Methyl ethyl ketone survey, Dec.
156

Mexico:

Americans lose suit on oil rights Aug.
153
Celanese Corp. expands rayon output
July 155
Food processing plant opened, Apr.
150
New oil refinery, Jan. 156
Opens new oil refinery, Oct.
159
Mica—Fluorocarbonyl key compound in
new synthetic mica (A), Feb.
154
Synthetic mica, Mar. 156
Middle Atlantic States—Chemical Engi-
neering Report, Apr. 158-159
Mill—Experimental vibratory mill guides
Akers to micron size, Dec.
158
Mining—Interlocking of chemical and
mining industries, June 158
Some chemical companies in the
mining business, June 158
Mixing—Automatic dry mixing slabs
labor cost in fertilizer plant,
Phillips & Madigan, Mar.
152
Separating drum prevents loss in
mixing hot and cold liquids, B. L.
Miller (P.N.), Dec. 157
Molding—Santol process for laundry
molds (A), Dec. 156
Moving an ammonia plant, French &
Wilson, Mar. 155

N

National Chemical Exposition—Exhibitors
show at Chicago, Oct. 154
National defense and the university
a mission in Berlin, J. R. Killian,
Jan. 158
National Science Foundation (ed), Nov.
157
N-butylacetylacetic copolymer ticks, Apr.
151

Natural Gas:

Aluminum Co. at Point Comfort
works has 150 natural gas engines
July 152
Are pressure vessels too thick? Hen-
jamin Miller, Jan. 156
Competition with oil, E. H. Poe, Jan.
154
First offshore pipeline to tap Gulf of
Mexico natural gas (N), Sept.
151
Hydrocarbons from natural gas,
Jones & Cox, July 150
Hydrocarbons from natural gas flow
sheet, July 157
Natural gas—its heart and arteries,
J. A. Lee (mat & tables), May
153
Plant will get hydrocarbon chemicals
from natural gas (N), Sept.
155
Production reserves, location, price
(charts & tables), May 154
Continuous soap process factory, Sept.
157
Textile yarn developed on basis of
reaction between natural rubber
and sulphur dioxide, Nov. 153
Naval stores plant at Virginia, Miss., uses
Glucose process (N), Dec.
158
Netherlands—Phenol plant, Dec.
158
New York, New Jersey and Pennsylvania
—chemical engineering report, Apr.
155-156
New Zealand—Fertilizer production, June
153
Pulp mill planned, Aug. 153

Nickel:

Construction materials in the paper
industry, H. O. Temple, Sept.
151
Nickel, nickel alloys in the paper in-
dustry, H. O. Temple, Oct.
151
Nickel—Materials of construction used
for nitric acid, W. Z. Friend, Feb.
158
Nitric acid—Materials of construction
used for nitric acid, W. Z. Friend,
Feb. 158
Nitration, Tumbull & Grossing, Dec.
151

Nomenclature:

Charts solve polytropic P-V-T rela-
tions for the perfect gas, Apr.
156
Rice, determines volume change from spe-
cific gravity data, Jan. 156
Flowers (P.N.), June 159
Dilution nomograph for certain aqueous
inorganic solutions, F. S. Ansell &
Samuels (P.N.), Oct. 153
Enthalpy correction for non-ideal
gases, D. S. Davis (P.N.), Dec.
155
Pressure drop through fixed and
fluidized beds, Weintraub & Liss,
Jan. 150
Steam viscosity at high temperatures
and pressures, C. J. Major (P.N.),
Sept. 151
Vapor pressures of organochlorine
area, Herring & Davis (P.N.), Apr.
156
Washing of rakes on filters, Nicola-
son & Jensen (P.N.), Sept. 157
Norway—Chemical expansion plans, Sept.
157
Magnesia plant to be built, Aug.
155
Nucleonics—New reactor, L. B. Fos-
tad (A), Feb. 159
Nuclear engineering in chemical en-
gineering, W. E. Winch, May 151
Nut, quick-lock, for equipment changes,
W. G. Thompson (P.N.), July
156
Nylon—Fost to expand nylon plants
(N), Oct. 152

O

Odor classification, Edward Sagarin,
E. C. Crocker, Jan. 157

Oils and Fats:

Armour uses Texaco's process to
separate oil components by frac-
tional crystallization (N), Nov.
151
Armour's McCook plant processes
fats and fatty acids—flow sheet, Feb.
152
Armour's new plant at McCook, Ill.,
processes fats and fatty acids,
Fotts & McBride, Feb.
152
Conus for 1947, Feb. 159
Continuous oil seed extractors re-
place batch units, Aug. 158
Exanol process gets more oil from
cottonseed, June 156
Miles opens new seed processing
plant, Aug. 158
Motor oil road tested, Sept.
157
Production price and value of our
most important fats and oils
(table), Feb. 157
Rotocel extractor for extracting oil
from vegetable seeds, George Kar-
nofsky, Aug. 158
Salad oil from rice bran, J. A. Lee,
Sept. 153
Shale facts, H. M. Thorne & others,
Jan. 151
Water injection streamlines miscella-
neous, J. M. Crook, Nov.

Olefin—4.7 billion pounds of chemicals
from four olefins, A. G. Kar-
nofsky (charts), Aug. 158
Organic chemicals—E. H. production of
synthetic rubber chemicals, Jan.
157; Feb. 174; Mar. 294; Apr. 308;
May 344
Organochlorines—Nomograph gives
vapor pressures of organochlorine
compounds, Herring & Davis (P.N.),
Apr. 155

Oxygen—Tonnage oxygen, B. F. Dodge
(ed), Feb. 150

P

Packaging:

Development of packaging ties in
with product research, May 152
Drug or detergent—packaging is part
of product development, Sept.
151
Polyethylene bags in cans hold
chemicals, May 154
Standard Oil Co.'s grease plant, J. V. Hightower
packaging center, Apr. 155

Paints:

Anti-shinning agents, Aug. 157
Butyl titanate, May 150
Census for 1947, Feb. 159
Chrome yellow pigment produced at
Willow Island (N), July 156
Concrete floor enamels, July 156
Low draw conclusions from three-
year paint study, O. K. Stephens,
Oct. 157
Hammer-effect finish, July 154
Protective coatings, U. H. Evans
(A), Feb. 152
Vinyl primer, May 155
White lead pigment, Aug. 152
Patents—A sound patent plan (ed), Mar.
151
Penicillin—Antibiotics survey, J. H.
Skene, Sept. 151
Penicillin flow sheet, Nov. 151
Pennsylvania, New York and New Jersey
—chemical engineering report, Apr. 155-156

Pensions:

Area-wide pension ideas developed by
Glasco in Toledo, Dec. 157
District 50 pension plan No. 1, D. C.
Bronson, Dec. 150
District 50 pension plan, Dec. 150
Is this the small company's answer
to the pension problem? P. W.
Taylor, Aug. 156
Require planning, R. C. Tynan (A),
Oct. 156
Peroxide organic, Dec. 156
Perlite—Popping perlite: from a shaky
start, a solid new industry, C. W.
Taylor, Aug. 156
Petroleum permitted tocopherol (N),
June 150

Petroleum:

Census for 1947, Feb. 159
Cracking—ethylene, Dec. 157
Watkins (A), Mar. 156
Ethyl anti-knock compounds flow
sheet, Feb. 152
Extracting petroleum from Canada's
oil sands, W. E. Adkins, Mar.
156
4.7 billion pounds of chemicals from
four olefins, A. G. Kar-
nofsky (charts), Aug. 158
How Ethyl makes ethyl, Aug.
156
Liquified petroleum gas—industry's
standby, E. A. Jamieson, Sept.
158
Oklahoma refinery adds cat cracker
(N), Oct. 150
Petrochemicals, Gustav Eklof, July
152
"Flatforming" flow sheet, Oct.
157
Production reserves, location, price
(charts & tables), May 154
Refining advances, P. H. Garner,
Oct. 158
Socomec—Vacuum to build Therme for
catalytic cracking unit (N), Sept.
150
Standard oil of California gets new
vacuum boiler (N), Sept. 150
Texaco pioneers new commercial al-
kyl extraction unit using furfural
in production of diesel fuels (N),
Feb. 159
Water treatment and oil, J. M. Brea-
ton (A), Feb. 156
World's largest cat cracker for Gulf
oil (N), Sept. 150
Thermochromic—Freeze drying coal dust
(N), Aug. 152
Phenol, alkyl, Dec. 157
Phenol flow sheet, Nov. 151

Phosphates:

Drilling methods improved for ex-
ploring phosphate beds (P.N.), Mar.
153
Foreign production of soluble phos-
phates planned for 1952 (table),
July 150
Noralyne phosphate plant in Florida,
June 158
Phosphoric acid—Materials of construc-
tion used for phosphoric acid, Nov.
153
Removes scale from boilers, Purcell
& White (A), July 157
Phosphorus—Kaiser steel furnace (N),
Aug. 158
Westvaco's Focastell plant getting
another furnace to produce phos-
phorus (N), July 151
Pilot plants—Equipment costs, Mol-
son, Decker & Cook (table), Apr.
150
How to get constant steam flow for
pilot plant use, F. C. Fowler
(P.N.), Aug. 154

Pipes:

Better way to prevent freezing of
outdoor water pipes (P.N.), Dec. 158

- Chart gives linear velocity to pipes for various temperatures and pressures. Gordon Kiddon (P.N.). Aug. 192
- Chart shows steam pipes without calculation. E. J. Gibbons (P.N.). Jan. 192
- Graphs can avert trial-and-error in many fluid flow computations. Melvin Nord. Aug. 192
- Improved piping connections for blowing out process lines. R. L. Miller (P.N.). Mar. 192
- Jacketed pipe easily fabricated for heating process liquids. E. A. Weber (P.N.). Mar. 192
- Liquid seal for agitators holds corrosive gases. D. T. Hayden. May 192
- Locating a distilling column blockage without drilling holes. F. H. Lacey. May 192
- Method for plotting curves relating two variables. A. A. Stanfield. Dec. 192
- Multiple orifice installation saves on meter cost. R. J. Armstrong. Jan. 192
- Pipe cost estimation report. R. A. Dickson. Jan. 192
- Right glass makes flow visible through pipe line. W. G. Thomson. Feb. 192
- Way to determine volume of a pipe-line reactor. A. P. Massa (P.N.). Oct. 192
- Plant construction—see Construction
- Plant Moving—How Girdler moved an ammonia plant. French & Wilson. Mar. 192
- Plant Notebook:**
- Automatic blowdown lifts liquids by steam or gas pressure. G. June. July 192
- Automatic level control for double drum dryers. H. H. Fox. Aug. 192
- Automatic timer controls chemical supply pumps. J. W. McClellan. Aug. 192
- Automatic valve protects production against power failure. C. P. Chaske. Feb. 192
- Avoiding hazard from burdall in fluorescent powders. P. C. Ziemke. Apr. 192
- Belt unloader handles both troughed and crowned conveyors. G. T. Austin. Apr. 192
- Butter way to clean up scale of outdoor water pipes. Dec. 192
- Chart gives comparative costs of coal and oil fuel. R. C. R. Feb. 192
- Chart gives linear velocity in pipes for various temperatures and pressures. Gordon Kiddon. Aug. 192
- Chart shows steam pipes without calculation. E. J. Gibbons. Jan. 192
- Coal kept flowing by steam-heating arrangement. June 192
- Compression of own vapors helps to unload fuming liquids from cars. H. F. Reichard. Feb. 192
- Constant rate liquid feeder for variable outlet pressures. E. D. Oliver. May 192
- Continuous density indicator is compensated for temperature. Frederick Carr. June 192
- Dilution nomograph for aqueous mineral acid solutions. Frihauf, Ansell & Samuels. Nov. 192
- Dilution nomograph for certain aqueous inorganic solutions. Frihauf, Ansell & Samuels. Oct. 192
- Drum type with scale for settling of precipitates. Das Gupta & Mukherjee. June 192
- Emergency acid inhibitor for acidifying treatments. Frank Gimbardo. Jan. 192
- Flow splitter for lab size fractionating columns. Kirk & Viola. Oct. 192
- Fluorescent test for exchanger tubes. Nov. 192
- Graphical method simplifies centrifugal pump calculations. Frederick Carr. Mar. 192
- Handling melted solids with quick-acting pumps and pipe. G. T. Austin. July 192
- How to achieve 1:200 to 1 reduction for feeder. A. R. Fowler. Feb. 192
- How to cut maintenance on orifice meter for wet gas. G. L. Shuman. June 192
- How to determine center distance for V-belt drives. F. H. Rumble. Aug. 192
- How to drive agitators magnetically in sealed pressure vessels. J. W. Foster. Nov. 192
- How to get more leverage on duplex bin gates. C. Lee. Dec. 192
- How to get the most use from your check valves. D. E. Morris. Sept. 192
- How to insure good operation of bucket steam trams. A. W. Lloyd. Apr. 192
- How to locate a distilling column blockage without drilling holes. Marshall Naul. Jan. 192
- How to measure flow by impact with ordinary pipe fittings. Melvin Nord. July 192
- How to reject unreliable data by statistical selection. J. T. Hogan. Jan. 192
- How to use bottles in constructing sensitive drift gages. Leslie Silverman. Dec. 192
- How to use submerged combustion to neutralize alkaline wastes. W. J. Weismann. Nov. 192
- Ice blocks used as lowering jacks in installing oil tank. Frank Gimbardo. June 192
- Improved piping connections for blowing out process lines. R. L. Miller. Mar. 192
- Inexpensive metering pump handles pilot plant and lab flows. Frederick Fahnestock. May 192
- Inexpensive shut-off valve for low-pressure work. A. W. Plummer. May 192
- Jacketed pipe easily fabricated for heating process liquids. E. A. Weber. Mar. 192
- Liquid feeding varying quantities of slurry. Sheldon Jacobs. Mar. 192
- Liquid seal for agitators holds corrosive gases. D. T. Hayden. May 192

- Morflex plasticizers. Oct. 192
- Non-toxic plasticizer. Oct. 192
- Plasticizer of the polyester type. Mar. 192
- Polyester plasticizer (A). Jan. 192
- Plastics:**
- Acrylic molding powder. Feb. 192
- Alkyd resin. Feb. 192
- Anti-static agent for polystyrene. July 192
- Enrap, new plastic resistant to chemicals. June 192
- Foreign production of plastics raw materials 1947 and 1952 (table). Feb. 192
- Impact type modeling compounds. Aug. 192
- Insulating plastic. Apr. 192
- Kel-F as gasket material. Apr. 192
- Kel-F and Teflon displayed at Pittsburgh Exhibition. June 192
- Lubricated polystyrene. Apr. 192
- Materials of construction used for plastics. Nov. 192
- Melamine-formaldehyde resin used in molding of plastic tableware. Sept. 192
- Phenolic plastics. June 192
- Plasticizer shown in the 1948 Chemical Show. Jan. 192
- Polystyrene plastic molding compound to be produced by Monsanto (N). May 192
- Polyurethane made from castor oil and dimercaptate. Apr. 192
- Taunton plastics unit to be modernized (N). July 192
- Thermosetting plastic. Sept. 192
- Polymeric material. Dec. 192
- Potash—Foreign production of potash planned for 1952 (table). Feb. 192
- Potassium chloride and sulphate flow sheet. Jan. 192
- Potassium perchlorate flow sheet. Jan. 192
- Poultry feed. Apr. 192
- Pottery spray. Apr. 192
- Power—Aluminum Co. at Point Comfort works has 120 natural gas engines. July 192
- Pressure drop calculations aided by chart. H. H. Fox. Feb. 192
- Pressure drop through fixed bedded beds. Weintraub & Levy. Jan. 192
- Prices:**
- New price index carried back to 1939-1949 (table). Feb. 192
- 1949 prices. Feb. 192
- Price, consumption and production trends. Jan. 192; Feb. 192; Mar. 192; Apr. 192; May 192; June 192; July 192; Sept. 192; Oct. 192
- Primer, organic. Apr. 192
- Printing for textiles and plastics. May 192
- Process—Equipment Dealers' Council meeting (N). July 192
- Process energy report. May 192
- Product development report. Sept. 192
- Project engineering report. David Gordon. Mar. 192
- Propane gas—Hydrogen produced from propane gas by the Hygirtol process. E. D. White. Sept. 192
- Propellers for disintegrators. Feb. 192
- Propionitrile. Apr. 192
- Propylamines. Aug. 192
- Public Relations:**
- Fundamentals of public relations. J. H. Wright (A). Oct. 192
- How and why to hold plant open-houses, a real method of improving community relations. Feb. 192
- Puerto Rico—Naphtha pulp unit to be put on paying basis. May 192
- Pulp and Paper:**
- Census for 1947. Feb. 192
- Construction materials in the paper industry. pt. 1, stock handling. Sept. 192; pt. 2, bleaching. Oct. 192
- Launching new University of Maine Pulp and Paper Foundation (ed). Nov. 192
- Newspaper and kraft mill in south (N). Dec. 192
- New pulp bleaching technique. Dec. 192
- Rebonding hardwood fibers into strong paper (A). May 192
- Utilization of bagasse by paper makers forecast (N). Mar. 192
- Pumps:**
- Automatic timer controls chemical supply pumps. J. W. McClellan. Apr. 192
- Diffusion pump. Sept. 192
- Evaluation time with reciprocating pumps. E. F. Johnson, Jr. Sept. 192
- Graphical method simplifies centrifugal pump calculations. Frederick Carr (P.N.). Mar. 192
- Handling melted solids with unjacketed pumps and pipe. G. T. Austin (P.N.). July 192
- High vacuum pump fluid. July 192
- How to be happy with Teflon packing. July 192
- How to figure reciprocating vacuum pumps. T. G. Nichols. June 192
- Inexpensive metering pump handles pilot plant and lab flows. Frederick Fahnestock (P.N.). May 192
- Leak-proof stuffing box. Butler & Sutter. Sept. 192
- To pick the right pump measure viscosity at pumping velocity. A. W. Shaw. Jan. 192
- Viscous materials. W. E. Worcester. Mar. 192
- Purchasing Agent. R. L. Demmerle. July 192
- Pyracetic leaching. June 192
